

Kindergarten Monthly Newsletter

September 2010
Peace Terrace Academy

ASAK brothers and sisters,

I hope you are all in good health and enjoying the first month of school with us. The first week was very crucial for your child and me to get to know each other and his/her classmates. In this month my focus is to acquaint the children with each other and to also establish the class rules. I am trying to enforce a daily routine for the children to follow and get accustomed to such as our circle time, cleaning-up time, quiet time and our system in lining up to leave the classroom for lunch and other activities. So far, Alhamdulillah, we have been successful in achieving these tasks. We have slowly but surely become comfortable with each other and in time are hoping to become like family!

This month we will be introducing the concept of letters and numbers and trying to incorporate them into our day-to-day activities. Your child has been learning about the calendar such as the day, date and year as well as the Islamic calendar. In order to achieve a disciplined and structured class room we review class room rules daily. You should see how much your child remembers!

The first week of school has gone by and hopefully you and your child have experienced a smooth transition to Kindergarten. I hope you and your child are communicating and they are sharing their daily activities with you with as much enthusiasm as I get in class! Please get adjusted to our folder system so the rest of the school year will be a breeze. Thank you all for your cooperation!

Mrs. Nausheen Haque
Kindergarten Teacher

From the Arabic teacher, Sister Nahla
